Radstock,
Bath. BA3 4BH.

For the attention of Mr. Matthew Bridges.

Re MCC Panel No 1887.

Dear Matthew,

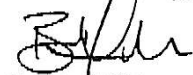

As you are aware the, MCC for the Purton to Littleton pumping station has now been installed and connected, the testing has proved satisfactory and the unit is ready for powering up as and when required.

We have to express our thanks for the help of your technical staff in designing this MCC, and your site staff for its installation.

In view of our satisfaction with this order, we shall be recommending you be appointed on a single source basis for the construction of the MCC for the Barrow Reservoir project.

We look forward to working with you in the near future on other projects.

Yours faithfully,

Bernie Wilde.
Project Manager.
